3. Micro-Market Notes

Kokapet / Financial District

Continued upward price movement driven by proximity to upcoming commercial developments; resale inventory remains thin, and sellers are generally firm on asking prices. Rental demand is strong from IT/ITES professionals relocating for financial-district office campuses.

Gachibowli

A more mature, established micro-market with steady but slower price appreciation compared to Kokapet. Older inventory (2014–2018 possession) sees more price negotiation flexibility than newer projects.

Kondapur

Popular with mid-size families due to established social infrastructure (schools, hospitals). Corner and park-facing units command a consistent premium and see limited price flexibility.

Nallagandla

Value-conscious micro-market; lake-facing units are a differentiator but buyers should be advised to conduct independent technical inspection given occasional seepage-related disclosures, as seen in the Lake Vista Residency listing above.

4. Internal Follow-Up Notes

- Sky Meadows A-1204: schedule second site visit for the Bengaluru-based NRI buyer enquiry received 12 Aug 2025
- Emerald Enclave C-0805: confirm with owner whether tenant's lease renewal (due 30 Nov 2025) affects sale timeline before circulating to new buyer leads
- Palm Grove Towers B-1502: owner has requested listing be paused from 1–15 September 2025 pending a family decision; do not share with new leads during this window
- Orchid Heights A-2001: coordinate directly with NRI owner's Hyderabad-based power-of-attorney holder for site visit scheduling

11. General Handling Guidelines

- All price and rent figures in this portfolio are subject to change without prior notice and should be verified with the listing owner before being confirmed to a client
- Site visits must be scheduled at least 24 hours in advance through the respective owner or tenant contact on file, and accompanied by an agent from this firm
- Any disclosed defects (e.g., the Lake Vista Residency seepage note in Section 1) must be communicated to prospective buyers or tenants in writing before an offer is made, in line with the firm's disclosure policy
- Listings marked as paused or on hold (see Section 4) must not be shown or discussed with new client leads until explicitly reactivated by the listing owner

12. Document Control

This portfolio is refreshed weekly, every Monday, by the listings desk. Agents should confirm they are working from the most recent version before sharing pricing or availability information with clients, as figures in earlier versions may no longer be accurate.

13. Legal and Compliance Notes

- All listing agreements must be signed by the owner (or a valid power-of-attorney holder) before a property is added to this portfolio; verbal mandates, as noted for pipeline listings in Section 10, are tracked separately and not treated as active listings
- For NRI-owned properties, agents must confirm the validity and scope of any power-of-attorney document before proceeding with a transaction, and route all financial communication through the registered POA holder or owner directly
- Any brokerage fee structure communicated to a client must match the terms in Section 6; agents are not authorized to offer discounted brokerage without written approval from the firm's managing partner
